Subject: Microsoft Settlement

Everyone, and that includes the Justice Dept. and the states involved , should leave Microsoft alone. Our country's technology is as advanced as it is today because of Microsoft and the brilliance of Bill Gates. Anti-trust is meant to protect the consumer against companies and not companies in competition with each other that can't compete. That is all this case is really about, companies that couldn't cut it and got jealous of microsoft.
Ann Ruth & Eugene Figg Tallahassee, Fl.
